

EUROSON

6-9.09.2018, Poznań, Poland

**REGULATIONS CONCERNING THE ARRANGEMENT OF EXHIBITION SPACE IN
HALL 15 DURING EUROSON CONGRESS**

Hall 15 has special conditions for the arrangement of space:

- the height of the stand, other structures or arrangements must not exceed 3 m,
- only ready elements, which do not require any preparatory work in the exhibition hall (system elements, foiled boards, roll-ups etc.) may be used during the construction of a stand / structure,
- fitted carpet must not be glued to the floor – the floor in the exhibition hall is covered with fitted carpet tiles,
- it is not possible to make water and sewage installations,
- it is not possible to suspend elements of the arrangement to the ceiling,
- it is possible to connect electrical installations to 3 kW (1x16A,230V),
- the lighting power is at least 500 lx

The following prohibitions and obligations apply in **Hall 15**:

- use naked flame and smoking is prohibited,
- prohibition to use forklift trucks; elements of stands and spatial arrangement as well as exhibits should be transported to level 1 and 2 of the exhibition hall only in a freight elevator from level 0,
- obligation to move along marked passageways during installation and disassembly works in the exhibition hall for safety reasons,
- obligation to immediately remove packaging and other waste from the exhibition hall,
- MTP reserves the exclusive right to make electrical, internet connections, cleaning service on behalf of all participants of fairs and other events organized on the MTP grounds.

The design of the stand/ construction needs acceptance of Technical Section of PCC - in order to do that, please send the design (with technical details) to 30th of July to : rejon4@mtp.pl. For any questions, please contact: + 48 691 023 662.
